Subjects

Abdomen
arteriography as diagnostic aid, 547
aspiration, equipment for, A-116 (Aug.)
Abortion
definitions of fetal maturity, live birth, stillbirth and miscarriage, A-160 (Nov.)
illegal, A-144 (Oct.)
Accidents
research on causes of falls (note), 182
Acid-base balance
determinations in clinical practice, A-68 (July)
metabolic acidosis, A-66 (Oct.)
metabolic alkalosis, A-48 (Sept.)
respiratory disturbances, A-46 (Aug.)
ACTH and corticosteroids
treatment of psoriasis, generalized sequelae, 188
Adrenals
hyperadrenocorticism, differential diagnosis, 344
tumor, benign, as cause of hyperaldosteronism, A-150 (July)
Alcoholism
amnesia due to, A-164 (Nov.)
metabolic acidosis in, A-68 (Oct.)
multidisciplinary approach to therapy, A-106 (Sept.)
Aldosterone
excessive, diagnosis and treatment, A-150 (July)
Alkalosis
metabolic, laboratory diagnosis, A-48 (Sept.)
Allergy
atopic dermatitis, 358
in skin diseases, 31
malpractice suits, A-45 (Oct.)
pollen sensitivity and childhood asthma, A-20 (Sept.)
status asthmaticus, 460
Amnesia: See Mental disorders
Amyloidosis
idiopathic, neuropathy in, A-156 (Sept.)
Anemia
leukopenia and, 536
sickle cell, clinical, genetic and roentgenographic findings, A-75 (Dec.)
Anesthesia
methoxyflurane, for ambulatory children, A-162 (Oct.)
Angiofibroma
in children, A-144 (Dec.)
Animal experimentation
arguments for and against (editorial), 690
Antibiotics
side effects, intestinal, 400
Anticoagulants
therapy, clinical control, 49
Aorta
aneurysm as cause of back pain, 649
Arteries
abdominal, selective arteriography, 547
carotid, internal, occlusion, A-160 (Oct.)
carotid, occlusion, in relation to pulseless disease (Takayasu's syndrome), 392
inflammation, nutrition and polyarteritis nodosa, A-119 (Oct.)
peripheral, disease, diagnosis by mercury strain-gauge plethysmography, 409
renal, dysplasia as cause of hypertension, 53
roentgen anatomy, five specific situations, A-93 (Oct.)
roentgen anatomy modified by disease and other factors, A-67 (Nov.)
roentgenographic visualization (editorial), 453
sclerosis complicating diabetes mellitus, dietary prophylaxis, A-101 (Dec.)
subclavian steal syndrome, 608
Arthritis: See also Gout
in aged, 676
nutrition in gout, rheumatism, osteoarthritis and infection-related arthritis, A-115 (Oct.)
of spine, 646
psoriatic, relation to steroid therapy, 188
psychogenic, 614
rheumatoid, surgery in, 110
Asbestosis
of lung and intestine, 83
Aspiration
equipment, cost reduction, A-116 (Aug.)
Asthma
in pollen-sensitive child, A-20 (Sept.)
status asthmaticus, causes and management, 460
Automation
computer analysis (CYDAC) of cell images, 567
in medicine, information storage and retrieval, 562
Autonomic nervous system
dysautonomia, familial (editorial), 99

Babbage, Charles
nineteenth-century Da Vinci, A-179 (Nov.)
Back
pain in, nondiscogenic disorders, 643
Bed rest
deterioration due to, 90
Biologic rhythms
correlation with celestial cycles, A-132 (Oct.)
Bladder
neck obstruction in male, 170
Blockley: See Philadelphia General Hospital
Blood: See also Rh factor
analysis, commercial tests, 664
dyscrasias: See Anemia, Hemophilia, Leukemia
eosinophilia, tropical, A-16 (Aug.)
erythrocyte sedimentation rates in older patients, A-44 (Nov.)
hypoglycemia, 23
hypoglycemia, diagnosis of (editorial), 97
hypoglycemia due to pancreatic tumor, 342
iron in, excessive, hemochromatosis, A-16 (July)
leukocytosis and eosinophilia, A-18 (Dec.)
leukopenia, investigation of causes, 536
platelets, electronic counting methods, A-44 (Dec.)
serum iron values in diagnosis of jaundice, A-158 (Oct.)
transfusion, hemolytic reactions causing renal failure, 484
transfusion, incompatible, and acute renal failure, A-150 (Sept.)
transfusion, platelet, for thrombocytopenia, A-138 (Aug.)
viscosity in Raynaud's disease, A-165 (Sept.)
Blood pressure
high, associated with migraine, 381
high, due to fibromuscular dysplasia of renal arteries, 53
high, due to hyperaldosteronism, A-150 (July)
low: See Shock
Blood vessels: See also Arteries, Varicose veins
peripheral, disease, nail changes in, 595
peripheral, Raynaud's disease, A-156 (Sept.), A-18 (Oct.)
Bone
defects of calcification, rickets in children, 669
osteoporosis as cause of back pain, 650
Bone marrow
studies in leukopenia, 536
Bosch, Hieronymus
medical and psychologic aspects of painting (editorial), 455
Brain: See also Central nervous system
cerebellar degeneration associated with lung cancer, 440
damage in elderly, differential diagnosis, 436
disease, vascular, diagnosis and management of stroke, 130
dysfunction, minimal, in children, 321
hemorrhage preceded by migraine attack, 381
ischemia due to subclavian steal syndrome, 608
meningeal cryptococcosis in patient with pulmonary involvement and chronic glomerulonephritis, 681
tumors, histologic and tissue culture studies, A-144 (Aug.)
ventromedial glucostatic mechanism as component of satiety, A-101 (July)
Breast
cancer, castration for, 343
inflammation, cystic mastitis, A-20 (July)
Burns
fire hazards in clothing (editorial), 454
malpractice suits, A-42 (Oct.)

Cancer
abdominal, diagnostic arteriography, 547
detection in women, screening technics, 152
endocrine effects of nonendocrine malignancies, 343
in children, treatment with actinomycin D, cyclophosphamide and vincristine, 445
infection in, A-148 (July)
malpractice suits, A-41 (Oct.)
of breast, castration for, 343
of colon, A-144 (July)
of esophagus as cause of dysphagia, 200
of lung, with associated cerebellar degeneration, 440
of posterior urethra, A-146 (July)
of rectum, pull-thru operation, 306
of skin, 34
of small intestine, 243
of spine, 648
of stomach, diagnosis, 228
of thyroid, 368
of thyroid, diagnosis and treatment, 333
of thyroid, diagnosis in nodules, 105
of thyroid, needle biopsy, 579
of thyroid, treatment, 585
of uterine cervix complicating pregnancy, 177
of uterine cervix, leukoplakia associated with carcinoma in situ, 327
of uterine cervix, office procedure for Papanicolaou test, A-19 (Aug.)
relation to musculoskeletal disorders in aged, 676
Cantharíasis
intestinal invasion by beetle larvae, A-22 (Nov.)
Cell images: See Cytology
Central nervous system: See also Brain
roentgenographic examination, changes in neuroradiography, A-83 (Aug.)
signal substances in brain and nerves, A-150 (Dec.)
Chest: See Thorax
Clinicopathologic conferences
dermatitis and arthritis, 188
double vision and ataxia, 440
hemoptysis and uremia, 683
progressive dyspnea, 83
Clothing
fire hazards (editorial), 454
Cold
effect on old people (note), 29
Colon: See Intestines
Computers: See also Automation
nineteenth-century contributions of Charles Babbage, A-179 (Nov.)
Constipation: See Intestines
Contraception
education in solution of population problem, A-142 (Oct.)
Creatine
metabolism in thyrotoxicosis, A-166 (Oct.)
Cryptococcosis
meningeal and pulmonary, 681
CYDAC
CYtophotometric DAta Converter applied to blood cell and chromosome discrimination, 567

Cystic fibrosis
sweat electrolytes in, 117
Cytology
computer analysis of cell images, 567
Cytomegalic inclusion disease
diagnosis, A-142 (Aug.)

Deafness: See Ear
Depression: See Mental disorders
Diabetes mellitus
complications, hemochromatosis, A-16 (July)
control in childhood, 515
diet in prevention of atherosclerosis, A-101 (Dec.)
following trauma, legal aspects, A-98 (Nov.)
in obese patients, effect of intermittent total fasting, 523
oral therapy with sulfonamides, neurologic complications, A-164 (Oct.)
Diarrhea: See Intestines
Diverticulosis: See Intestines
Drugs
evaluation of toxicity (note), A-83 (Oct.)
side effects, leukopenia, 536
Duodenum
ulcer: See Peptic ulcer
Dysautonomia
familial (editorial), 99
Dysphagia
causes and treatment, 200

Ear
deformities due to thalidomide, A-162 (Oct.)
disease, office otology, 141
dysacousia, classification, A-162 (Oct.)
otitis media, "wet" treatment, A-72 (Dec.)
otosclerosis, surgical treatment, A-162 (Oct.), A-162 (Nov.)
Echinococcosis
of lung, A-142 (Dec.)
Electrocardiography: See Heart
Electroconvulsive therapy: See Mental disorders
Elephantiasis
of scrotum, A-20 (Sept.)
Emphysema: See Lung
Eosinophilia
tropical, A-16 (Aug.)
Erythrocytes: See Blood
Esophagus
injury, malpractice suits and, A-45 (Oct.)
obstruction as cause of dysphagia, 200
Extremities
deformities due to thalidomide, A-162 (Oct.)
Eye
blindness due to vascular disease, A-18 (Oct.)
infection, trachoma, vaccine for, A-22 (Dec.)
rhabdomyosarcoma in child, chemotherapy, 449

Falls
accidental, causes (note), 182
Famine
causes, effects and rehabilitative measures, A-117 (Nov.)
Fat
subcutaneous, atrophy due to insulin injections, A-22 (Dec.)
Fathers
expectant, care and management, 658

Fingernails
abnormalities, primary and secondary, 595
Foot
crippling due to peripheral nerve injuries, 509
deformities due to women's shoes (note), 96
Forensic medicine
diabetes mellitus following trauma, A-98 (Nov.)
legal problems relating to artificial insemination, 415
malpractice in cases related to cancer, burns, esophageal injury and allergy, A-41 (Oct.)
malpractice involving female sex organs, A-66 (Aug.)
malpractice, lack of diligence, A-70 (Sept.)
malpractice, procedural problems, A-48 (July)
personal injury suits, doctor's opinion on future developments, A-84 (Dec.)
self-inflicted skin injuries, 620
Fractures
of vertebrae, 645
Fungous infection
of skin, 33

Galactosemia
early diagnosis, A-144 (Dec.)
Gallagher, Bernard J.
Minnesota doctor in British Expeditionary Force (editorial), 331
